

## Next Steps.....

Now that you have viewed the three options please fill in a feedback form to let us know what you think.

The following sets out what the next steps are for taking this project forward:

### *Preparation of Final Information – Mid July to Mid August 2010*

Following this exhibition event, a final package of information will be prepared for RENEW to use to take the project forward to implement as and when funds become available. This information will include the plans of the options, which will be finalised following feedback received at this event, as well as further design details and detailed cost estimates. Outline phasing plans, to show how the options might be implemented over four years, will also be available after the designs have been fully developed and these will be made available on RENEW North Staffordshire's website ([www.renewnorthstaffs.gov.uk](http://www.renewnorthstaffs.gov.uk)).

### *Potential Investment this Financial Year – Mid August 2010 – End of March 2011*

RENEW and Stoke on Trent City Council will be looking to take the project forward by implementing a first phase of work (likely to be focused around the Leek Road/Thornton Road area) this financial year. This is subject to funding being available and you will be kept informed of progress via the community newsletters and community forum meetings (please add your contact details to the feedback form so that we can send you invitations to forum meetings).

**Thanks for your time!**
